Stonel pneumatic accessories

Stainless Steel Filters/ Exhaust Port Mufflers

All-stainless construction stands up to harsh environments. Use with air and inert gas.

They reduce noise by 15-20 dB and trap particles down to 50 microns.

Element: Porous 316 stainless steel
Body: 304 stainless steel
Max. Temperature: 400° F
Max. Pressure: 175 psi

Part Number	Size
ST409165	1/8" NPT
ST409166	1/4" NPT
ST409167	3/8" NPT

Exhaust Port Speed Controls

The speed of an actuator may be increased or decreased with the adjusting screw. The final position is then locked in place by the lock nut.

Max. Temperature: 300° F
Max. Pressure: 300 psi

Brass	Body: Brass Element: Porous Sintered Brass
Stainless Steel	Body: 304 stainless steel Element: Porous 316 stainless steel

Part Number	Material	Size
ST604610 (pack of 2)	Brass	1/4" NPT
ST604611 (pack of 2)	Stainless Steel	1/4" NPT

Inline Speed Controls for Axiom Expeditior (Stainless Steel)

These speed control mufflers provide an infinite variation of air flow and are designed to be placed between the Axiom pneumatic ports and the actuator. The speed of the actuator may be increased or decreased with the adjusting screw.

Body: 316 stainless steel
Max. Temperature: 180° F
Max. Pressure: 120 psi

Part Number	Size
ST604825	1/4" NPT
